Revised: April-18

Candidates for the Bachelor of Science in Engineering in Engineering Physics - B.S.E. in Eng Physics - must complete the program listed above. This sample schedule is an example of one leading to graduation in eight terms.

Notes:

¹ If you have a satisfactory score or grade in Chemistry AP, A-Level, IB Exams or transfer credit from another institution for Chemistry 130/125/126 you will have met the Chemistry Core Requirement for CoE.

² If you have a satisfactory score or grade in Physics AP, A-Level, IB Exams or transfer credit from another institution for Physics 140/141 and 240/241 you will have met the Physics Core Requirement for CoE.

³ Math Electives must be 300-level or higher.

⁴ For students pursuing ME in Engr Technical Electives, CEE 211 or ME 240 will be advised as a substitute for Physics 401. MECHENG 440 or MECHENG 540 can be substituted with faculty program advisor approval.

⁵ Engineering Electives are to be chosen in consultation with the faculty advisor to form a coherent sequence that clearly defines professional goals for the student. Sample elective sequences for a number of different subject areas are available from the academic or faculty advisors.

⁶ For students pursuing ME in Engr Tech Elective, students will be advised to take ME 235 and ME 320 as Flexible Tech Electives. For students pursuing Aero in Engr Tech Electives, students will be advised to take Aero 225 and Aero 325 as Flexible Tech Electives.

⁷ Students contemplating graduate studies in Physics should elect Physics 453, Quantum Mech and Physics 463, Solid State for a complete background.
